## Magnesium Hydroxide Powder for Pulp Bleaching

|   |  |   |                      |
|---|--|---|----------------------|
| <b>DESCRIPTION</b>                      | CellGuard MH is a fine, white high purity magnesium hydroxide powder produced from magnesium-rich brine and dolomitic lime. It contains lower levels of transition metals as compared to naturally occurring minerals.                                   |   |                      |
| <b>USES</b>                             | CellGuard MH can be used as a cellulose protector in oxygen bleaching systems, as an alkali source in mechanical and recycled pulp peroxide bleaching, and as a partial substitute for caustic soda in the extraction stages of chemical pulp bleaching. |   |                      |
